01. Executive Summary

Tokyo in 2026 is the highest-infrastructure, lowest-friction mega-city in the world to live in, and simultaneously one of the harder ones to legally remote-work from long-term. Daily life is exceptional: world-class public transit, negligible street crime, 1000+ Mbps fibre as standard, and an urban density that still feels orderly. The yen's post-2022 weakness has made Tokyo measurably cheaper in USD/EUR terms than it was for most of the 2010s.

The constraints are specific. Japan's new Digital Nomad Visa (launched Mar-2024) is short at 6 months and carries a JPY 10 million (~USD 65k) income floor, effectively blocking most independent nomads. Language is a genuine gate: English service layers exist in Roppongi, Hiroo, and parts of Shibuya, but most banking, leasing, and medical interactions default to Japanese. The housing search often still gatekeeps on "foreigner accepted" listings and guarantor companies.

Verdict for 2026: BUY for salaried expats on employer-sponsored work visas and higher-income Digital Nomad Visa qualifiers; CONDITIONAL for independent remote workers planning stays past 6 months without clear visa substance.

Estimated Monthly Living Costs -- 2026

Resident Profile	Monthly Estimate (JPY)	Lifestyle Descriptor
Budget Nomad	¥3 250 -- ¥4 225	Shared housing, local transport, home cooking
Standard Remote Professional	¥5 650 -- ¥7 345	Private 1BR, coworking, regular dining out
Premium Lifestyle Expat	¥12 200 -- ¥18 300+	Prime district, premium services

Key Strengths

Strength	Commentary
Remote-Friendly Visa	Japan Digital Nomad Visa available for remote workers. Minimum income requirement: ¥7 000/month.
Digital Infrastructure	Average WiFi speeds of 250 Mbps. Coworking from ¥300/month.
Safety Profile	Safety index: 95/100. Crime level: Low.
Healthcare	Healthcare quality score: 95/100.
English Proficiency	English proficiency: 60/100 -- good for international residents.

Key Risks

Risk Factor	Impact Summary
Cost Trajectory	Inflation rate: 2.8%. Rent volatility index: 4.5/10. Market relatively stable.
Tax Burden	Top personal income tax rate: 45%. Corporate tax: 23%. Capital gains: 20%.
Currency Risk	Currency stability: High. Minimal FX risk.

Living Cost Atlas Index Score -- Tokyo 2026

Dimension	Weight	Score	Contribution
Affordability	30%	5.8 / 10	1.74
Infrastructure	20%	8.7 / 10	1.74
Safety	15%	9.5 / 10	1.43
Quality of Life	20%	9.6 / 10	1.92

Dimension	Weight	Score	Contribution
Economic Stability	15%	7.5 / 10	1.13
COMPOSITE	**100%**	**--**	**7.95 / 10**

7.95/10 (STRONG BUY) -- Tokyo ranks in the upper quartile of relocation destinations.

02. Quick Fact Sheet

Parameter	Value / Estimate	Context
Country	Japan	Asia
Currency	JPY (¥)	Stability: High
Rent -- 1BR City Centre	¥4 200 / month	Varies by district
Rent -- 1BR Outside Centre	¥2 700 / month	Commuter accessible
Coworking (Hot Desk)	¥300 / month	Available citywide
Internet Speed (avg.)	250 Mbps	
Safety Index	95 / 100	Crime: Low
Visa	Japan Digital Nomad Visa	Remote-worker friendly
Visa Processing	45 days	Stay: 6 months
Min. Income Req.	¥7 000/month	For visa qualification
Top Income Tax	45%	Personal income
Corporate Tax	23%	
Inflation Rate	2.8%	Annual
Public Transport	98 / 100	
Healthcare Quality	95 / 100	
English Proficiency	60 / 100	
Airport Connectivity	95 / 100	
Nomad Score	84 / 100	LCA composite

03. Detailed Cost Breakdown

Itemized monthly cost estimates across major expenditure categories for international residents in Tokyo. All figures in JPY and reflect Q1 2026 estimates.

Housing

Accommodation Type	Monthly Cost (¥)	Notes
Studio / 1BR -- City Centre	¥4 200	Average; varies by district
Studio / 1BR -- Outside Centre	¥2 700	Commuter areas
2BR -- City Centre	¥6 300	Estimated from 1BR rate
2BR -- Outside Centre	¥4 050	Family-suitable
Shared Room / Coliving	¥1 350	Budget option
Short-term (Airbnb-style)	¥7 560	Monthly rate; higher daily

Food & Dining

Category	Daily Cost (¥)	Monthly Estimate
Budget (cooking at home)	¥15	¥450
Standard (mix of cooking & dining)	¥35	¥1 050
Premium (frequent dining out)	¥100	¥3 000

Tokyo is arguably the single greatest food city on Earth by depth and consistency: a JPY 900 (USD 6) ramen from a 20-seat specialist can be the best bowl you've ever eaten, while the fine-dining top end (Narisawa, Den, Florilege) is world-leading. Conbini (7-Eleven, Lawson, FamilyMart) genuinely solve breakfast and lunch at EUR 4-6. The net effect: mid-range dining in Tokyo is meaningfully cheaper in 2026-weak-yen terms than any Western global city at equivalent quality.

Transport & Connectivity

Item	Monthly Cost (¥)
Public Transport Pass	¥100
Coworking (Hot Desk)	¥300
Internet (Home)	¥40
Mobile Plan	¥25

04. Monthly Budget Scenarios

Three archetypal resident profiles for Tokyo 2026.

Profile 1 -- Budget Nomad

Expense	Amount (¥)
Accommodation (shared/suburb)	¥2 700
Food (home cooking)	¥450
Transport	¥100
Internet + Mobile	¥50
Entertainment	¥80
TOTAL	**¥3 250 -- ¥4 225**

Profile 2 -- Standard Remote Professional

Expense	Amount (¥)
Accommodation (1BR centre)	¥4 200
Food (mixed)	¥1 050
Transport	¥100
Coworking	¥300
Internet + Mobile	¥50
Entertainment + Dining	¥200
TOTAL	**¥5 650 -- ¥7 345**

Profile 3 -- Premium Lifestyle Expat

Expense	Amount (¥)
Accommodation (premium 2BR)	¥8 400
Food (premium)	¥3 000
Transport (car + public)	¥200
Coworking (dedicated)	¥600
Healthcare + Insurance	¥630
Entertainment + Travel	¥400
TOTAL	**¥12 200 -- ¥18 300+**

05. Neighborhood Analysis

Five neighborhood profiles for Tokyo evaluating rental economics, lifestyle character, and demographic fit.

Shibuya

District Type: Central + Energetic | Est. 1BR Rent: ¥4 914 -- ¥6 279/month

Shibuya

Shibuya -- photo via Wikimedia Commons (CC licence)

The Hachiko-crossing heart of youth-and-tech Tokyo: shopping, startups, and the densest service build-out in the city.

Best For -- Single remote workers and tech professionals wanting the "Tokyo postcard" life.

Shinjuku

District Type: Mega-Hub + Mixed | Est. 1BR Rent: ¥4 725 -- ¥6 037/month

Shinjuku

Shinjuku -- photo via Wikimedia Commons (CC licence)

Tokyo's largest station, the government district, and an enormous nightlife zone in Kabukicho all layered into one ward.

Best For -- Corporate expats and those who value maximum transit connectivity.

Nakameguro

District Type: Trendy + Residential | Est. 1BR Rent: ¥5 103 -- ¥6 520/month

Minato (Roppongi / Azabu)

Minato (Roppongi / Azabu) -- photo via Wikimedia Commons (CC licence)

Meguro River cherry-blossom corridor, boutique retail, and the rare central-Tokyo "neighbourhood feel" at premium pricing.

Best For -- Longer-term expats and creatives prioritising residential-quality living.

Roppongi

District Type: International + Premium | Est. 1BR Rent: ¥5 481 -- ¥7 003/month

Setagaya

Setagaya -- photo via Wikimedia Commons (CC licence)

Roppongi Hills, Midtown, and the highest concentration of international residents, restaurants, and foreign-language services in Tokyo.

Best For -- Corporate expats, embassy staff, and premium English-first residents.

Kichijoji

District Type: Residential + Value | Est. 1BR Rent: ¥3 213 -- ¥4 106/month

Meguro / Naka-Meguro

Meguro / Naka-Meguro -- photo via Wikimedia Commons (CC licence)

West of central Tokyo: Inokashira Park, Ghibli Museum, and the consistent "best place to live in Tokyo" poll winner among locals.

Best For -- Families, longer-term residents, and value-oriented remote workers willing to take the Chuo/Inokashira line.

06. Work Infrastructure & Digital Readiness

Dimension	Score	Assessment
Internet Speed	250 Mbps	Excellent -- fiber widely available
Coworking Ecosystem	¥300/mo	Mid-to-premium pricing
Public Transport	98/100	World-class transit system
English Proficiency	60/100	Good -- functional for daily life
Airport Connectivity	95/100	Major international hub

Commentary. Tokyo's digital infrastructure positions it well for remote workers. Learning basic local language phrases is recommended.

07. Safety & Quality of Life

Dimension	Score	Notes
Safety Index	95/100	Crime level: Low
Healthcare Quality	95/100	Public + private options
Public Transport	98/100	Daily commute viability
English Proficiency	60/100	Ease of integration
Airport Access	95/100	Travel connectivity
Nomad Score	84/100	Overall remote-worker suitability

Seven-Dimension Lived Quality Scorecard

Dimension	Score	Notes
Climate	6.5/10	Four distinct seasons: spring (Mar-May) and autumn (Oct-Nov) are excellent, summer (Jul-Aug) hot/humid, winter (Dec-Feb) cold/dry. Climate shift is making summers notably worse.
Walkability	9.5/10	Tokyo is the world's densest, most reliable public-transit city: JR, Metro, Toei, private lines cover everything. Walking + train covers 99% of urban needs.
Healthcare	9/10	National Health Insurance covers 70% at tier-1 hospitals (St. Luke's International, Toranomon, Tokyo University Hospital). Access is excellent; language is the main friction for non-Japanese speakers.
Safety (Lived)	9.8/10	Among the safest mega-cities in the world. Violent crime is genuinely rare; lost wallets frequently returned; women-solo late-night safety is excellent by global standards.
Culture & Arts	9.5/10	Food, craft, design, music (jazz, classical, J-pop), cinema, fashion, architecture -- depth across every cultural vector. Museums (Mori, teamLab, Nezu, Tokyo National) are world-class.
Air Quality	7.5/10	Generally good; occasional PM2.5 transport from mainland Asia. Summer ozone and heat-island effect elevate discomfort more than official AQI.
Green Space	7/10	Yoyogi, Shinjuku Gyoen, Hibiya, Inokashira, Meguro River give excellent pockets. Overall tree canopy is thinner than Berlin or Paris; density of green-per-person is moderate.

Commentary. Tokyo scores 95/100 on safety, placing it among the safest cities globally. Healthcare at 95/100 meets international standards.

08. City Comparison -- Tokyo vs. Peer Cities

Tokyo benchmarked against regionally appropriate peers. Rent differentials are expressed as percentage relative to Tokyo.

- **Seoul** -- Closest East-Asian peer; cheaper, higher-spec infrastructure in places.
- **Singapore** -- Regional financial-hub peer with stronger English and lower tax.
- **London** -- Peer global city; comparable cost base, weaker safety and transit.
- **New York** -- Global peer with higher rents and a very different density rhythm.

City	1BR Rent	vs. Tokyo	Safety	Nomad Score
Tokyo (baseline)	¥4 200	--	95/100	84/100
Seoul	3 000	-29%	90/100	82/100
Singapore	S$5 100	+21%	97/100	83/100
London	£5 700	+36%	75/100	74/100
New York	$6 000	+43%	75/100	74/100

Commentary. Among peer cities, Tokyo sits at a moderate price point. Seoul provides the closest comparison in lifestyle and cost profile.

09. Pros & Cons Summary

Strengths

Strength	Detail
Transit + Safety	World-best public transit; effectively no street crime.
Food Depth + Value	Globally unmatched mid-range dining, amplified by weak yen.
Infrastructure Quality	Fibre, healthcare, services all tier-1 without exception.
Weak-Yen USD Leverage	Tokyo is measurably cheaper in USD/EUR terms than 2019.
Cultural Depth	Food, design, craft, music -- Tokyo is inexhaustible.
Conbini Economy	7-Eleven, FamilyMart, Lawson genuinely solve breakfast + lunch + banking + parcel-delivery at EUR 4-6 per meal.
Healthcare System	National Health Insurance covers 70% of costs; high-quality care at a fraction of US pricing. Access is excellent once enrolled.
Cherry-Blossom + Seasonal Culture	Hanami, Obon, momiji, snow festivals -- Tokyo's seasonal rhythm is a quality-of-life asset, not just aesthetic.

Limitations

Limitation	Detail
Language-Gated Daily Life	Japanese is effectively required beyond specific expat zones.
Housing Friction for Foreigners	Guarantor company and "foreigner-friendly" filter still shape the search.
DNV Income Floor	JPY 10M annual income requirement excludes most nomads.
Seismic Baseline Risk	Real long-run earthquake exposure; buildings are excellent, but the event risk is non-zero.
Reikin + Shikikin Upfront	Leasing typically requires 3-6 months' rent upfront (key money, deposit, broker, first month) -- non-recoverable key money is standard.
Apartment Size Reality	Central Tokyo 1LDK (45-55m2) is generous; 1R/1K stock (20-30m2) dominates the cheap tier. Expat-friendly sizes cost real money.
Work-Culture Pressure	Traditional Japanese companies still run long hours and strong insider/outsider dynamics; international/tech layer is more flexible but not universal.
Summer Climate Decline	Jul-Aug heat+humidity has notably worsened post-2018; outdoor summer life is shrinking.

10. Who Should Move to Tokyo?

Tokyo runs on a quiet-efficiency social contract: silence on trains, precise politeness in transactions, and a high bar for insider integration. Work culture remains long-hours-first in many traditional Japanese companies; the international/tech layer is more Anglo-familiar. Japanese-language investment is high-leverage for quality of life; English-only living is possible in specific zones (Roppongi, Hiroo) but thin elsewhere.

Solo Remote Workers

CONDITIONAL

Infrastructure is world-class; visa options are narrow. Salaried employer-sponsored is the cleanest path; DNV works for high earners on short stays.

Digital Nomads (3-6 months)

CONDITIONAL

DNV is 6-month, single-use, and requires JPY 10M+ annual income. Not suited to budget nomads; suits high-earning short-stay remote workers.

Relocating Families

RECOMMENDED

Safest major city in the world, excellent international schools (ASIJ, Nishimachi, St. Mary's), and strong public healthcare. Language is the main integration project.

Retirees

CONDITIONAL

No dedicated retirement visa; long-stay paths exist but require employment, spouse, or business nexus. Healthcare is excellent; cost base has improved with weak yen.

Entrepreneurs

CONDITIONAL

Business Manager Visa is viable but paperwork-heavy (JPY 5M capital minimum, office lease). Founder-friendly relative to 10 years ago; still bureaucratic.

11. Risk Factors & Economic Outlook

Risk Vector	Level	Assessment
Earthquake + Seismic	HIGH	Tokyo is on multiple seismic faults; a major earthquake is a real statistical event. Building codes are world-class but factor seismic readiness into housing choice.
Language Barrier (Non-Tourist)	HIGH	Banking, leasing, healthcare, and most official paperwork default to Japanese. English layers exist in specific zones but are narrow.
Housing Access for Foreigners	MODERATE	Many landlords still avoid foreign tenants; guarantor companies (Nihon SafetyDF, Epos) and "gaijin-friendly" listings are the workaround.
Typhoon Season (Aug-Oct)	LOW	Periodic typhoons disrupt transit and flights; city infrastructure absorbs them well but planning around the window matters.
Summer Heat + Humidity	MODERATE	Jul-Aug regularly hits 33-37C with 70-85% humidity; climate shift has pushed summers notably worse vs 2010. Heat-island effect in central wards is substantial.
DNV Income Floor	MODERATE	JPY 10M (~USD 65k) annual income requirement excludes most independent nomads. Plan employer-sponsored or Business Manager visa for serious residency.

12. Living Cost Atlas Index Methodology

The LCA Index is a composite scoring framework providing standardized relocation intelligence across global cities.

Dimension	Weight	Data Sources
Affordability	30%	Rent indices, grocery costs, transport, coworking pricing
Infrastructure	20%	Internet speed, public transport, healthcare, airport connectivity
Safety	15%	Crime indices, political stability, emergency services
Quality of Life	20%	Climate, walkability, culture, healthcare access
Economic Stability	15%	Currency stability, inflation, GDP growth, policy environment

LCA Index = (Affordability x 0.30) + (Infrastructure x 0.20) + (Safety x 0.15) + (Quality of Life x 0.20) + (Economic Stability x 0.15)

Score Range	Classification	Guidance
8.0 -- 10.0	STRONG BUY	Top-tier destination; plan actively
6.5 -- 7.99	BUY	Solid destination; proceed with planning
5.0 -- 6.49	HOLD	Selective appeal; detailed research required
Below 5.0	CAUTION	Significant trade-offs; specialist advice recommended

13. Final Verdict

Living Cost Atlas's assessment of Tokyo as a 2026 relocation destination.

LCA Index	Classification	Recommendation
7.95 out of 10.0	STRONG BUY	PROCEED WITH PLANNING

Tokyo scores 7.95/10 on the Living Cost Atlas Index, classified as STRONG BUY. This is one of the strongest relocation destinations available.

Verdict for Digital Nomads

Tokyo in 2026 is a high-end option, not a budget nomad city. The DNV is capped at 6 months with a JPY 10M (~USD 65k) income floor, effectively selecting for high earners on short stays. Standard budget lands USD 2,400-4,200/month including a Shibuya/Nakameguro 1LDK -- the yen's weakness has made this meaningfully cheaper in USD terms than 2019. For salaried expats on employer-sponsored Engineer/Specialist visas, Tokyo is unmatched on infrastructure and safety.

Verdict for Families

Tokyo is arguably the best major-city family relocation globally on safety and transit. ASIJ (American School), Nishimachi, St. Mary's International, and Tokyo International School cover international pathways at JPY 3-4M/child/year. National Health Insurance covers most care. Housing for 3BR+ in central wards (Minato, Shibuya, Meguro) runs JPY 500k-1.2M/month; Kichijoji and Setagaya offer strong value at a 20-30 minute commute.

Verdict for Founders & Entrepreneurs

Japan's Business Manager Visa is viable but paperwork-heavy (JPY 5M capital, physical office lease, 2 employees or equivalent substance). The J-Startup program and Tokyo's English-friendly accelerators (Plug and Play, 500 Global Japan) have lowered founder friction sharply post-2020. Best for deep-tech, hardware, robotics, and consumer-lifestyle plays targeting Japanese/East-Asian markets; less ideal for pure SaaS targeting US/EU.

CLOSING STATEMENT

Tokyo in 2026 is the world's highest-infrastructure mega-city with one of its narrowest visa regimes for independent remote workers. BUY for high-earning employer-sponsored expats, families prioritising safety and infrastructure, and deep-tech founders; CONDITIONAL BUY for DNV-qualified short-stay high earners; CAUTION for budget nomads and anyone unwilling to invest in Japanese.

A. Appendix: Getting Set Up -- Your First 30 Days

A practical field handbook for the first month in Tokyo. Banking, mobile, coworking, essential apps, and a week-by-week bureaucracy timeline -- the real operational sequence that determines whether your relocation stalls or stabilises.

Banking

Provider	Notes
Japan Post Bank (Yucho)	Easiest for new arrivals with fresh Residence Card + My Number Notification. Branches everywhere; English forms; debit card in 1-2 weeks.
SMBC Prestia	Former Citibank Japan; best English-service retail bank. Free international wires up to JPY 200k; requires JPY 500k initial balance.
Shinsei Bank	Second-best English service, strong FX, free ATM withdrawals at Seven Bank.

Mobile / SIM

Operator	Plan & Price
NTT Docomo	Best coverage nationwide. ahamo postpaid JPY 2,970/mo 20GB + 5min free calls.
Rakuten Mobile	Cheapest unlimited: JPY 3,278/mo unlimited on own network, capped JPY 2,178 under 20GB.
Povo 2.0 (KDDI)	App-only; base JPY 0/mo + pay-as-you-go data topups (300MB JPY 390).

Coworking -- Named Recommendations

Space	Area	Price & Vibe
WeWork Roppongi	Roppongi / Minato	JPY 70,000/mo hot desk. Central, strong foreign-executive crowd.
Impact Hub Tokyo	Meguro	JPY 45,000/mo. Quieter, social-impact leaning, good focus.
NewWork (Mitsubishi)	multiple sites	JPY 18,000/mo for flexible access to 50+ locations citywide -- best value if you travel around Tokyo.

Essential Apps

- Suica / PASMO (IC card in Apple Wallet)
- Google Maps or Navitime (transit)
- Line (messaging + Line Pay)
- Uber Eats / Demae-can
- PayPay (dominant QR payments)
- Mynaportal (government My Number portal)

Week-by-Week Timeline

W1 Week 1 -- Arrive on work visa, HSP, business manager, or spouse visa. Residence Card issued at NRT/HND on arrival. NTT/Rakuten SIM same day.

W2 Week 2 -- Ward office (kuyakusho) registration within 14 days -- this generates your My Number notification (needed for bank + phone postpaid).

W3 Week 3 -- Apartment hunting is the hardest Tokyo step: reikin (key money 1-2 months), shikikin (deposit 1-2 months), agent fee (1 month), guarantor company fee (0.5 month). Foreigner-friendly agents: Plaza Homes, Ken Corporation, GaijinPot Housing.

W4 Week 4 -- Open Japan Post Bank or Shinsei, enroll in National Health Insurance at ward office (mandatory), set up home fibre (NURO or So-net 2Gb JPY 5,200/mo), enroll pension.

B. Appendix: Common Scams & Gotchas

The defensive manual. These are the recurring scams, rent-hustles, and bureaucratic traps that cost new arrivals real money in Tokyo. Each entry is a known-pattern with the counter-move in one line.

Scam / Gotcha	How to defuse
Roppongi and Kabukicho izakaya touts	Men in suits pull foreigners into "discount" bars with JPY 50,000+ bills enforced by staff. Never follow a street tout; use verified Google Maps listings.
Unlicensed "Shinjuku girls bar" touts	Lead to hidden table charges and forced drinks with police escorts. Walk around anyone offering "best bar, very cheap".
Fake real-estate guarantor (hoshonin) services	Tokyo rentals require guarantor company; some "cheap" providers default, losing your key-money. Use Plaza Homes, Ken Corp, Leopalace only.
Ghost gyoza / okonomiyaki flyer mills	Menu at door differs from billed total; "otoshi" mandatory side dish hidden on English menu. Ask "otoshi wa?" before sitting.
JPY scams via non-official ATMs	Independent kiosk ATMs charge JPY 1,000+ per withdrawal and occasionally skim. Use Seven Bank, Japan Post, or AEON ATMs only.
Fake My Number notification mail	Phishing letters claiming My Number correction + EUR-prepaid-card payment. Real Kojin Bango Center never SMS or email; only municipal office.

Patterns rotate; treat this as a baseline, not an exhaustive list. When in doubt, walk away.

C. Appendix: Visa Deep-Dive

The full operational read on Tokyo's long-stay pathways -- primary visa route, secondary fallbacks, and the non-obvious pitfalls that derail applicants. Cross-reference with your citizenship and tax residency before filing.

PRIMARY PATHWAY

HSP -- Highly Skilled Professional Visa (Points-Based)

Japan's top-tier skilled-worker visa. Points-based system rewarding salary, education, age, Japanese-language ability. 70+ points unlocks 5-year status and fast-track permanent residence in 1-3 years.

Field	Detail
Eligibility	70+ points from: salary (JPY 10M+ = 40pts), masters degree (20pts), PhD (30pts), Japanese N1 (15pts), age <30 (15pts), recognised research. Many tech professionals hit 70+ naturally.
Processing Time	1-3 months via Japanese embassy abroad OR in-country conversion from existing work visa. Certificate of Eligibility (CoE) is the bottleneck.
Cost	CoE issuance free. Visa issuance JPY 6,000 (USD 40). Ward office registration free.
Stay Duration	5 years initially; PR eligibility at 1 year (80+ points) or 3 years (70-79 points) -- vs 10 years for standard work visas.
Perks & Benefits	Spouse can work unrestricted, parents sponsorship, fast-track PR, multi-entry with unlimited exits, hire domestic help.

Secondary Pathways

Route	Summary
Engineer / Specialist in Humanities Visa	Standard 1/3/5-year work visa for degree holders + related employer role. Most corporate hires.
Business Manager Visa	For founders: JPY 5M+ capital, office lease, 2+ employees OR 1 employee + business plan. 1-year renewable.
Digital Nomad Visa	Launched March 2024. 6 months max, non-renewable, JPY 10M annual income. Too short for real settlement but useful for trial stays.

Non-Obvious Pitfalls

- Tokyo apartment gatekeeping: many buildings refuse foreigners. HSP status helps, but guarantor-company fees (0.5-1 month) are near-universal.
- Tax residency at 183+ days/year -- Japan taxes worldwide income at up to 45% + 10% local resident tax. HSP + spouse status does not change this.
- Points recalculation: if salary drops below threshold, HSP status can be downgraded at renewal.
- My Number + Residence Card + Health Insurance are three separate bureaucratic steps at the ward office -- plan 1-2 ward office trips in week 2.

Immigration rules change; verify current fees and thresholds on the official government portal before filing. This guide reflects 2026 Q1 status.
